

3" HYDRAULIC SUBMERSIBLE CENTRIFUGAL SCREW PUMP

MODELS S3SCR

3" (7.6 cm) Discharge

The S3SCR is ideal for pumping high viscosity liquids such as crude oils, latex, molasses and refinery wastes using a positive displacement screw. When pumping lighter materials, the impeller acts as a centrifugal type providing high capacity. Typical uses include oil skimmers and cargo pumping.

FEATURES

- Unique Centrifugal Screw Impeller.
- Small Overall Size allows for use in confined spaces
- Oil Lubricated Seals (can run dry)
- Can be used inline as a booster pump
- Safe Hydraulic Drive can be used where electric power is hazardous or impractical
- Optional External case drive available
- Operates with our HT10 to HT25 power units or other hydraulic power sources capable of flows of 6 - 11 GPM
- Lightweight and Powerful
